

# Old Work Electrical Boxes

Old Work electrical boxes require careful selection for a good installation.

Please observe the following criteria:

- 1) E-Box must have sufficient depth = 3.5" (Example: Steel City CYLE 1/2 or 3/4 depending on conduit used). (use with Swing Ears – see below)
- 2) DO NOT use F-Brackets (aka battleship brackets) This will void the product warranty.
- 3) Use Swing Ears instead (see specs below)
- 4) Ensure that the screws holding ears in place Do Not protrude into the inside of the box by any significant amount, else device fit may be compromised.
